About Serwo

User-oriented & sustainable

We are always developing and improving our solutions for the particular application situation. We are also pleased to alter and individualize our products on customer request. This is how we guarantee everyday usability.

Apropos everyday life: The hot topic of sustainability is already routine for us. Consequently, we set store on recyclable materials, use innovative materials and also offer products in recyclable alternatives.

National & international

Today, **SERWO** is among the leading providers worldwide. Our export share is meanwhile over 70 %. Our customers include reputable companies on all five continents and international groups.

But we also still have close contact with small and medium-sized companies. We have also retained our urge to develop of the early years. We are therefore constantly improving and expanding our product range.

Affordable & high quality

Thanks to rational production and lean management, we offer you competitive prices. And that with the shortest delivery times. This is because we constantly have over 8,000 pallets of our standard products in stock. This enables us to ensure the adherence to the supply chains of our customers around the globe.

Our high quality standards are also decisive for our high customer satisfaction and customer loyalty. **Our company is 2009 ISO-certified as a visible sign for their observance.**

1977...

we began to produce one-way seat covers and paper foot mats for workshops. But the close contact to our customers soon made us realize: demand for high-quality workshop solutions was far greater.

Consequently, we have continuously expanded our core area and our portfolio. Today, we offer a wide automotive product range for vehicle protection, workshop equipment, paintshop, tire trade and workshop organization at our Leverkusen location.

Moreover, since 1992 we have been producing packaging for industry and commerce at our Egelin location near Magdeburg. Since 2018, we have been distributing **SERWO Packaging** in Emmendingen near Freiburg.

For people with vision!

Ecoprotect product line

Remain lastingly in the memory of your customers through the use of Ecoprotect protection solutions!

Protect sustainably every day!

For the perfect protection of the vehicle interior and our environment.

1 set per box
20 boxes per carton
20 cartons per pallet

OUR UPCYCLING PROCESS

FOR OUR PROTECTIVE SOLUTIONS

The Ecoprotect product line is made out of collected and used PET bottles. The empty bottles are collected, cleaned and shredded. The material is then melted and processed into the finished product. This treatment process not only minimizes waste, but also avoids CO2 emissions.

For everything that deserves special protection!

Automotive protective solutions

You get your hands dirty and let the sparks fly for your customers. With our automotive protective solutions, you always keep everything clean. We offer you made-to-measure protection for all car parts you come into contact with in the workshop: for inside and outside, paint and leather, material and plastics.

To prevent you losing any time, our films and covers can be quickly attached and removed. Free of residues. This allows you to protect the inner and outer values of your customers - and leave everything squeaky clean.

Our protective films for seats are available in various qualities or strengths:

- Economic
- Extra
- Premium

Set solutions for perfect protection of the vehicle interior - the original!

ADVANTAGES AT A GLANCE

- Multiple vehicle protection items in one kit
- Protects the vehicle interior from dirt, water and oil
- Meets the highest quality and service standards
- Offers effective and affordable protection for the interior of the customer's vehicle while it remains in the workshop
- Simplifies scheduling
- Saves on storage and bulky dispenser systems
- Ideal for providing the mechanic with all the necessary protection together in the job sheet folder
- Saves unnecessary to-ing and fro-ing, since items can be removed individually or as a set

Show your true colors!!

Paintshop supplies

Precision is your second name - above all when it comes to painting. This is also no problem with our extensive product range for your paintshop. Various films, papers and masking tapes ensure that the paint is only applied where it is needed. Even sensitive spots like seals or disks are no longer an issue.

Thanks to intelligent solutions, you even save time. With our wheel cover for rim painting, for example, it only takes two minutes to cover the rim. In addition, we offer you suitable protective equipment, paint mixing accessories and articles for pre- and post-treatment. So your customer relationship stays in tip-top shape.

For customers with profile!

Tire trade supplies

Your service also makes the difference. And this is already evident in detail. Particularly in such a competitive segment as tires. For instance, disposable tire bags are meanwhile standard for self-storers. Here we score points with our sturdy quality and matching screw bags, both ideally with printed logos.

When customers entrust their tire storage to you, you need efficient warehouse management. Here our tire tags and storage labels guarantee clear and fast allocation of tires to the vehicle. To make sure everything fits and the customer rolls off the courtyard satisfied again.

Workshop organization

You like to keep an overview? Then you will love our solutions for your workshop planning. This is because our order folders and planning tables make organizing your order processing easy and clear.

This is complemented by efficient vehicle identification and key management: with our index code systems and key rings, you simplify the organization of your car keys from the sales, exhibition and the service and workshop areas. You always have everything under control - and can focus on what counts.

Off the beaten path!

Cleaning articles

You like things clean - your customers all the more!
Only a clean vehicle is a must upon collection. However oil, grease, dust and tire marks are simply unavoidable in the workshop. Nevertheless, you can make sure you have a clean working environment - if you always have the right cleaning products to hand.

This can best be achieved with our cleaning paper dispensers. Fixed or mobile, you can always ensure everything is clean wherever soiling occurs. And if anything does end up on the vehicle, you create spotless customer satisfaction with our cloth range.

CHAMOIS
„CLEAN & DRY“

- For gentle drying of all sensitive surfaces
- Quick and high absorbency compared to conventional chamois leather

ART. NO. 0730002
100 pieces per carton
9 cartons per pallet

APPLICATION

Wash the absorbent cloth with a mild rinsing agent. When the cloth is dry and hard, simply soak it in water. After use, store the cloth moist in the box.

Very well packaged!

Industrial packaging

We can do more than cars: **SERWO** packaging offers you a complete product range for goods packaging and safekeeping. Our product portfolio ranges from all kinds of films and bags, strapping and adhesive tapes to special industrial solutions.

At our location in Magdeburg, we stock the entire standard product range on over 10,000 m² warehouse space. This allows us to guarantee short delivery times. We can also print most products according to your wishes or according to your guidelines. Contact us!

SER-MACHINE STRETCH FILM

For individualists!

**Promotional products**

You are professionals. We make this visible. This is because we offer you many of our articles with printed logos. With your name and your logo, you can underscore the professional claim of your company. Not just on the entry sign, but also on all work equipment.

Additionally, the right promotional items will enable you to strengthen the relationship to your customers. A small gesture with a big effect. On the one hand, your customers will be delighted about the nice gift. On the other, they will always have a pleasant reminder of you, which will encourage them to place the next order.
